

Every Garment
Uplifts Someone.

From the hands that **craft** it,
to the brand that **carries** it,
to the person who **wears** it.

Numbers and markets explain what we do.
And how we choose to work defines who we are.

Managing Partners, Gawtham Dhandapani & Durairaj.

About Us

Our journey began in 2021 in Tiruppur, India, backed by over 25 years of textile experience through the spike Group. From cotton processing to final exports, we have lived the garment journey end to end.

Today, our 3 production units operate with more than 1,000 skilled workers, 450 tailoring benches, supported by a young, focused team committed to doing things right.

We specialise in hosiery and premium knitted garments for men, women, and children, serving brands across Europe, East Asia, and the Middle East.

Spike Creations was built on a simple promise:
to manufacture responsibly, consistently, and with care.

Cotton | Superior Cotton | Organic Cotton | Organic blends
Cotton with synthetic fibre blends | Premium materials

Knitted fabrics range

Rib | Jersey | Interlock | Airtex | Honeycomb
Lycra Jersey | Fleece | Mini Jacquards

Made to last in quality, comfort, and conscience. 

Vision

To build a manufacturing ecosystem where every garment uplifts someone, the worker who crafts it, the brand that carries it, and the world that wears it.

Mission

To deliver consistent, exceptional knitwear to global brands through a value-led manufacturing process that values people, honours every stage, and aligns with global benchmarks in care, compliance, and craftsmanship.

Clothes aren't just made.
They're crafted with
intention.

Values we live by

Professionalism

We deliver clear communication, steady timelines, and zero surprises.

Devotion

We give our full care to even the smallest detail, because excellence is built stitch by stitch.

Responsibility

We choose what's right over what's easy, even when it costs us more.

Growth Mindset

We rise higher in skill, purpose, and impact with every order we fulfill.

Excellence

We create garments that make the maker proud, the brand

Community

We stand as one family, where every person is seen, heard, and respected.

Consistency

We keep our promises, order after order, without exception.

Our Promise

SPIKE's strength lies in dependable execution.

- 450 tailoring benches
- 2000 to 50,000 pieces/ style
- 25,000 garments daily capacity
- 1000+ skilled artisans
- 100 support staff
- 0.65 million pieces monthly output

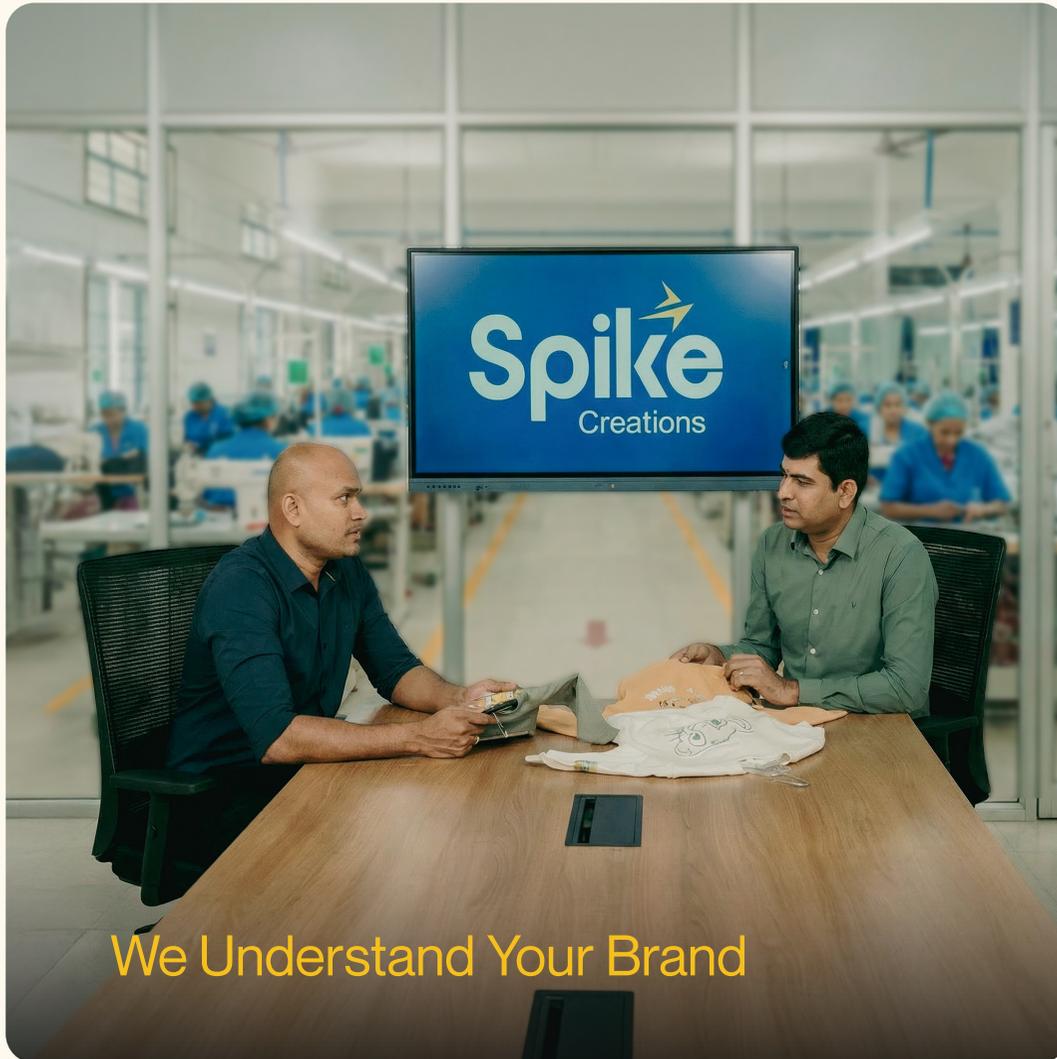

“

Consistency, transparency, and responsibility guide every order, because how we work defines what we deliver.

How we work

A great garment is the result of every right decision made before it reaches you. Every stage of our process is built to give you consistent output, reliable timelines, zero last-minute surprises, and the confidence that your brand's standards are in safe hands.

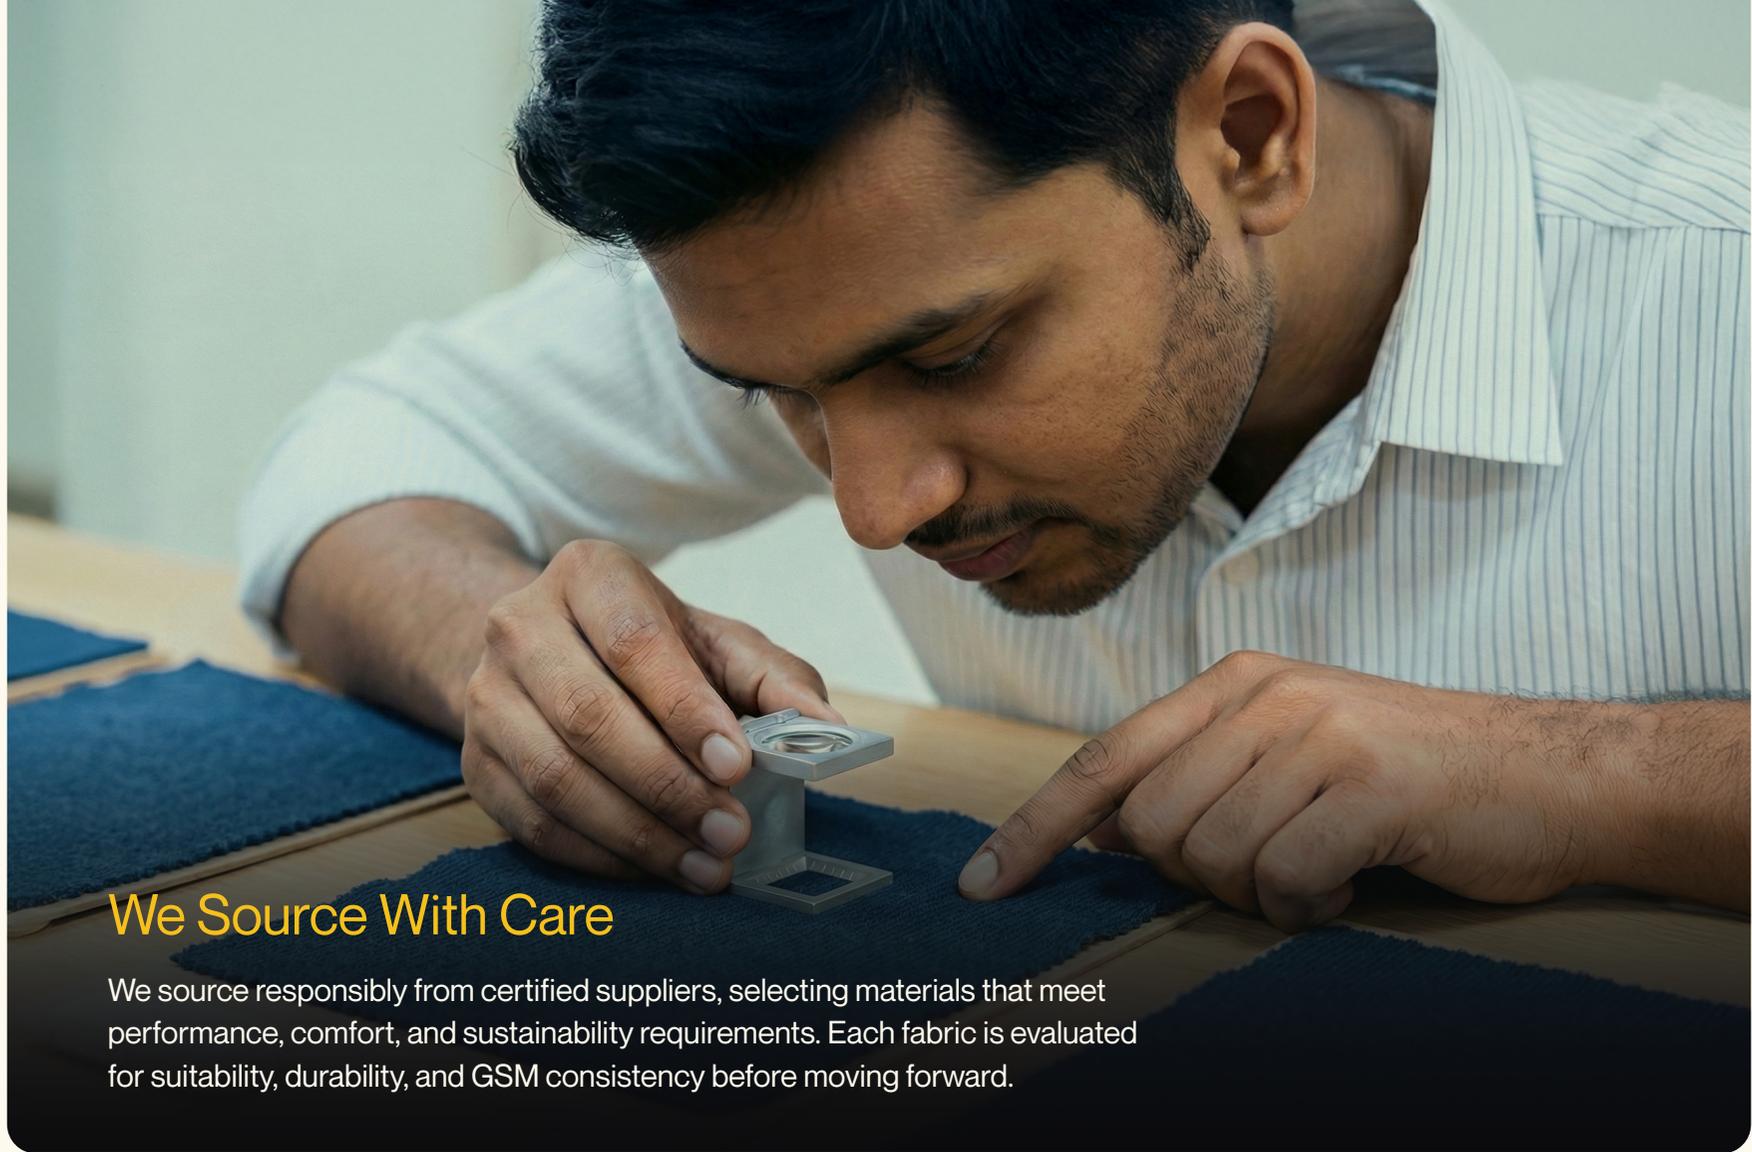

Every partnership begins with listening.

Before production starts, we take time to understand your brand, designs, market positioning, and expectations. **Silhouettes, usage, quality benchmarks, and long-term goals** are carefully studied to ensure alignment beyond a single order.

Our **sampling lab** translates ideas into prototypes quickly, allowing styles to be refined and approved before production begins, setting clarity from the start.

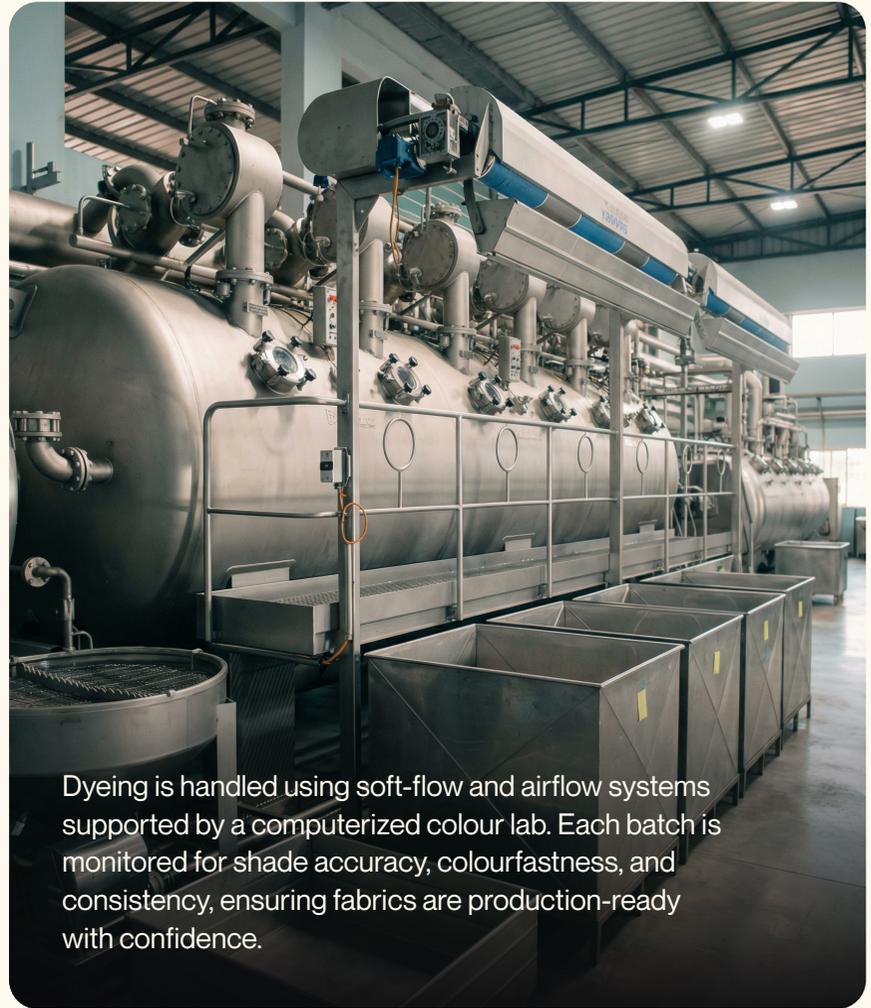

We Source With Care

We source responsibly from certified suppliers, selecting materials that meet performance, comfort, and sustainability requirements. Each fabric is evaluated for suitability, durability, and GSM consistency before moving forward.

Knit & Dye

Our knitting capabilities cover a wide range of structures tailored to both design intent and performance needs.

Dyeing is handled using soft-flow and airflow systems supported by a computerized colour lab. Each batch is monitored for shade accuracy, colourfastness, and consistency, ensuring fabrics are production-ready with confidence.

Print & Embroidery

Details define identity.

Automated printing systems deliver clean placement and vibrant results, while embroidery and value additions are executed using modern automation, appliqué cutting, and fusing techniques.

Every detail serves a purpose and strengthens the garment's brand story.

Cutting

Fabrics are relaxed before cutting to ensure dimensional accuracy and markers are planned with material efficiency in mind.

Precise bundling keeps every panel organised and traceable through the next stage.

Sewing

Skilled teams, balanced sewing lines, and structured workflows manage every stage from fabric handling to final output with precision and consistency.

Quality Checks

Quality at SPIKE is built into the process.

Issues are identified early and addressed carefully, ensuring consistency across every piece, by design, not chance.

Checks operate at multiple stages, from fabric testing and in-line sewing inspections to final AQL-based evaluations. Measurements, stitching, finish, and appearance are reviewed systematically.

Finishing & Packing

Each piece is steamed, shaped, folded, labelled, and packed according to buyer-specific requirements. Metal detection and compliance checks ensure safety before dispatch.

Orders are barcoded, sorted, and prepared with precision, supported by strong logistics coordination to meet committed timelines.

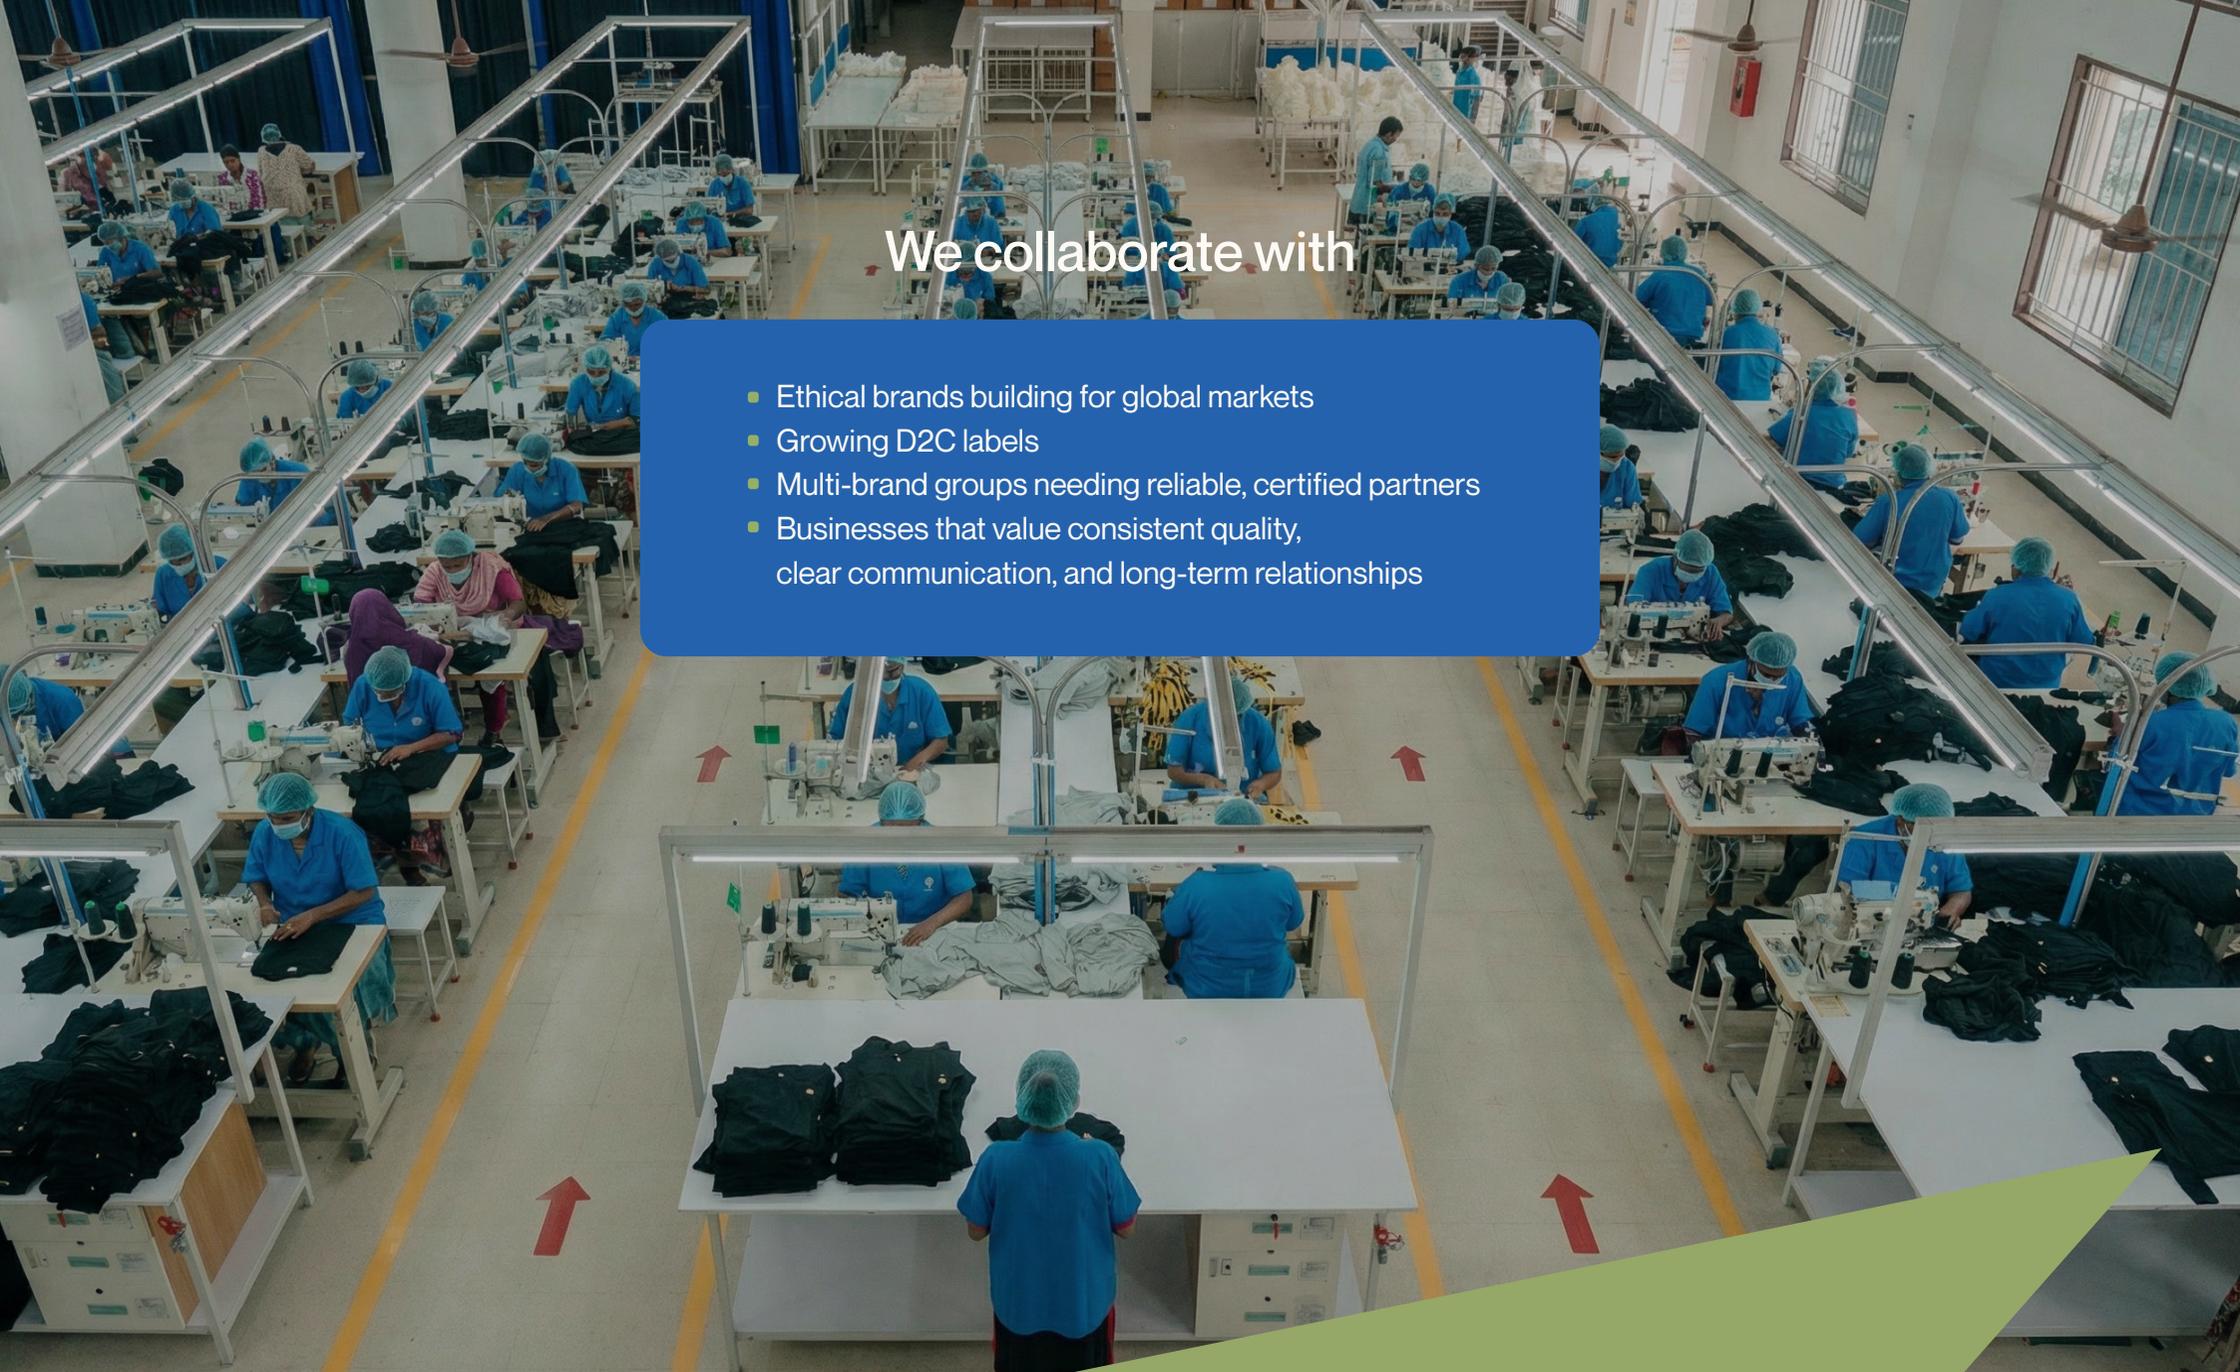

Certified & Trusted

A promise that every garment is crafted with integrity and intention.

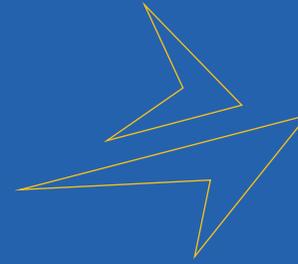

Awards

We collaborate with

- Ethical brands building for global markets
- Growing D2C labels
- Multi-brand groups needing reliable, certified partners
- Businesses that value consistent quality, clear communication, and long-term relationships

With Spike, you don't just get garments. You get a partnership built on **trust, reliability, and long-term success.**

Why brands choose us

When brands choose Spike Creations, they choose more than just a manufacturer. They choose peace of mind.

Flexible Approach

We adapt to your timelines, volumes, and design changes to keep things moving smoothly.

Dedicated Team

From production to leadership, our team takes full ownership of your order.

Transparent Communication

We keep you in the loop at every stage, with easy access to decision-makers.

Reliable Quality

We deliver the same high standards every time, with no surprises.

Growth with Integrity

We help you scale while staying true to your brand values.

Our prestigious customers

coupang

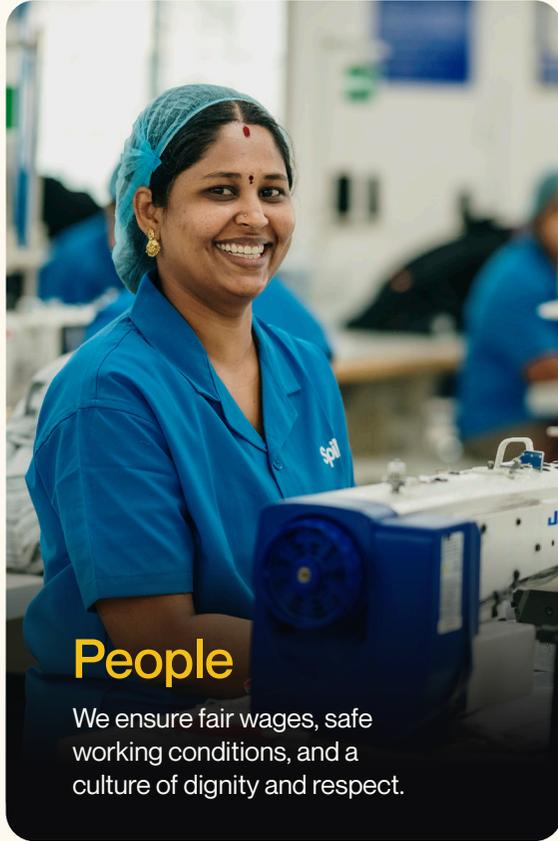

Sustainability initiative

Thuligal Kangayam Trust is Spike Creations' sustainability initiative, started in 2017 with a commitment to environmental responsibility beyond manufacturing.

The initiative focuses on planting, nurturing, and protecting trees across villages, schools, and open lands, beginning in Kangeyam. Every sapling is cared for through regular monitoring, watering, and replacement where needed, ensuring long-term ecological impact.

Through Thuligal, Spike supports the restoration of native species, greener landscapes, and healthier ecosystems, reflecting our belief that true sustainability is built through consistent care and long-term action.

Our Commitments

People

We ensure fair wages, safe working conditions, and a culture of dignity and respect.

Planet

We support sustainable choices - organic cotton, recycled blends, and eco-conscious dyeing.

Partners

We value transparent processes, certified compliance, and honest, long-term relationships.
